In this truly one-of-a-kind book, the author/narrator—a representative, in extremis, of contemporary American obsession with beauty, celebrity, transmitted image—finds himself suspended, fascinated, in the remoteness of our wall-to-wall mediascape. It is a remoteness that both perplexes and enthralls him. Through dazzling sleight of hand in which the public becomes private and the private becomes public, the entire book—clicking from confession to family-album photograph to family chronicle to sexual fantasy to pseudo-scholarly footnote to reportage to personal essay to stand-up comedy to cultural criticism to literary criticism to film criticism to prose-poem to litany to outtake—becomes both an anatomy of American culture and a searing self-portrait. David Shields reads his own life—reads our life—as if it were an allegory about remoteness and finds persuasive, hilarious, heartbreaking evidence wherever he goes. Winner of the PEN / Revson Award?

In a personal memoir, the author describes her relationships with the two men closest to her--her father and his brother, Joseph, a charismatic pastor with whom she lived after her parents emigrated from Haiti to the United States. The essays in Voices from the Rust Belt “address segregated schools, rural childhoods, suburban ennui, lead poisoning, opiate addiction, and job loss. They reflect upon happy childhoods, successful community ventures, warm refuges for outsiders, and hidden oases of natural beauty. But mainly they are stories drawn from uniquely personal experiences: A girl has her bike stolen. A social worker in Pittsburgh makes calls on clients. A journalist from Buffalo moves away, and misses home. A father gives his daughter a bath in the lead-contaminated water of Flint, Michigan” (from the introduction). Where is America’s Rust Belt? It’s not quite a geographic region but a linguistic one, first introduced as a concept in 1984 by Walter Mondale. In the modern vernacular, it’s closely associated with the “Post-Industrial Midwest,” and includes Michigan, Ohio, and Pennsylvania, as well as parts of Illinois, Wisconsin, and New York. The region reflects the country’s manufacturing center, which, over the past forty years, has been in decline. In the 2016 election, the Rust Belt’s economic woes became a political talking point, and helped pave the way for a Donald Trump victory. But the region is neither monolithic nor easily understood. The truth is much more nuanced. Voices from the Rust Belt pulls together a distinct variety of voices from people who call the region home. Voices that emerge from familiar Rust
Belt cities—Detroit, Cleveland, Flint, and Buffalo, among other places—and observe, with grace and sensitivity, the changing economic and cultural realities for generations of Americans.

A Pulitzer Prize-winning correspondent with unprecedented access to the inner workings of the U.S. Supreme Court chronicles the personal transformation of a legendary justice. From 1970 to 1994, Justice Harry A. Blackmun (1908-1999) wrote numerous landmark Supreme Court decisions, including Roe v. Wade, and participated in the most contentious debates of his era all behind closed doors. In Becoming Justice Blackmun, Linda Greenhouse of The New York Times draws back the curtain on America's most private branch of government and reveals the backstage story of the Supreme Court through the eyes and writings of this extraordinary justice. Greenhouse was the first print reporter to have access to Blackmun's extensive archive and his private and public papers. From this trove she has crafted a compelling narrative of Blackmun's years on the Court, showing how he never lost sight of the human beings behind the legal cases and how he was not afraid to question his own views on such controversial issues as abortion, the death penalty, and sex discrimination. Greenhouse also tells the story of how Blackmun's lifelong friendship with Chief Justice Warren E. Burger withered in the crucible of life on the nation's highest court, revealing how political differences became personal, even for the country's most respected jurists. Becoming Justice Blackmun, written by America's preeminent Supreme Court reporter, offers a rare and wonderfully vivid portrait of the nation's highest court, including insights into many of the current justices. It is a must-read for everyone who cares about the Court and its impact on our lives.

FEATURING A FOREWORD BY SLASH A BEHIND-THE-SCENES LOOK AT THE MAKING OF MEGADETH'S ICONIC RECORD, RUST IN PEACE, BY THE BAND'S LEAD VOCALIST AND GUITARIST When Rust in Peace was released in 1990, the future of Megadeth was uncertain. Fresh off their performance at the record-breaking Monsters of Rock festival, and with knockout new albums from Slayer, Anthrax, and Metallica dominating the charts, the pressure to produce a standout statement record was higher than ever. In Rust in Peace: The Inside Story of the Megadeth Masterpiece, the band's lead vocalist and guitarist, Dave Mustaine, gives readers a never-before-seen glimpse into the artistry and insanity that went into making the band's most iconic record. He recounts the arduous task of hiring the band and supporting cast, of managing egos and extracurriculars during the album's ensuing success, and succumbing to the pressures of fame and fortune—which eventually forced the band to break up. And yet, Megadeth's demise was just the beginning; the birth pangs of the record were nothing compared to what came next. Alcohol, drugs, sex, money, power, property, prestige, the lies fed to the band by the industry—and the lies they told each other—threatened to eat away at the band's bond like rust, devouring it until only the music survived.

**Voices from the Rust Belt**

I No records show how it happened, though everyone has their beliefs as to why the golden age of man fell seven hundred years ago. Since, humanity has managed to rebuild a modest civilization from the ruins. Now a medieval war begins to ravage the land once known as America. The lives of six young men become ensnared in the violence as they serve the Eastern army. Chief among them are Tavin, the son of a respected general and Seneca, a physician drafted away from his studies. Loved ones left at home are threatened when Kayzitt, the zealot Western officer, leads his marauders behind enemy lines. His cruel methods devastate every community he encounters and the East seems doomed to fall under its own weight as he makes a name for himself in the legends of the militaristic West. But the six heroes notice that something has changed inside themselves. Their minds are subtly connected in a way that cannot be explained but lends them increased prowess on the battlefield. Inevitably, their skills place them on a collision course with Kayzitt that will shape the future of the nation. Age of Rust is a tale of displaced youth, the struggle for life, and the peril of love in war-time. It is an ode to masculine vainglory and the valor in conflict as it bridges with the feminine witness of human corruption and loss of innocence.

Brother, I'm Dying

Rural Wisconsin, 1909. In the bitter cold, Ralph Truitt, a successful businessman, stands alone on a train platform waiting for the woman who answered his newspaper advertisement for "a reliable wife." But when Catherine Land steps off the train from Chicago, she's not the "simple, honest woman" that Ralph is expecting. She is both complex and devious, haunted by a terrible past and motivated by greed. Her plan is simple: she will win this man's devotion, and then, ever so slowly, she will poison him and leave Wisconsin a wealthy widow. What she has not counted on, though, is that Truitt — a passionate man with his own dark secrets — has plans of his own for his new wife. Isolated on a remote estate and imprisoned by relentless snow, the story of Ralph and Catherine unfolds in unimaginable ways. With echoes of Wuthering Heights and Rebecca, Robert Goolrick's intoxicating debut novel delivers a classic tale of suspenseful seduction, set in a world that seems to have gone temporarily off its axis.

From Delicate Arch to the Zion Narrows, Utah’s five national parks and eight national monuments are home to some of America’s most amazing scenic treasures, created over long expanses of geologic time. In Wonders of Sand and Stone, Frederick H. Swanson traces the recent human story behind the creation of these places as part of a protected mini-empire of public lands. Drawing on extensive historical research, Swanson presents little-known accounts of people who saw in these sculptured landscapes something worth protecting. Readers are introduced to the region’s early explorers, scientists, artists, and travelers as well as the local residents and tourism promoters who worked with the National Park Service to build the system of parks and monuments we know today, when Utah’s national parks and monuments face multiple challenges from increased human use and from development outside their borders. As scientists continue to uncover the astonishing diversity of life in these desert and mountain landscapes, and archaeologists and Native Americans document their rich cultural resources, the management of these federal lands remains critically important. Swanson provides us with a detailed and timely background to advance and inform discussions about what form that management should take.

The people she sees as the unsung backbone of our nation. Faced with the financial promise of a steelworker's paycheck, and the very real danger of working in an environment where a steel coil could crush you at any moment or a vat of molten iron could explode because of a single drop of water, Eliese finds unexpected warmth and camaraderie among the gruff men she labors beside each day. Appealing to readers of Hillbilly Elegy and Educated, Rust is a story of the humanity Eliese discovers in the most unlikely and hellish of places, and the hope that therefore begins to grow.

The Book of Dave is Booker-shortlisted author Will Self's dazzling sixth novel What if a demented London cabbie called Dave Rudman wrote a book to his estranged son to give him some fatherly advice? What if that book was buried in Hampstead and hundreds of years later, when rising sea levels have put London underwater, spawned a religion? What if one man decided to question life according to Dave? And what if Dave had indeed made a mistake? Shuttling between the recent past and a far-off future where England is terribly altered, The Book of Dave is a strange and troubling mirror held up to our times: disturbing, satirizing and vilifying who and what we think we are. At once a meditation upon the nature of received religion, a love story, a caustic satire of contemporary urban life and a historical detective story set in the far future - this compulsive novel will be enjoyed by readers everywhere, including fans of Martin Amis and Anthony Burgess's A Clockwork Orange. ‘Vivid, visceral and breathtakingly ambitious, this is Self's best yet’ GQ ‘Mindboggling darkly hilarious A fascinating book' Evening Standard Will Self is the author of nine novels including Cock and Bull; My Idea of Fun; Great Apes; How the Dead Live; Dorian, an Imitation; The Book of Dave; The Butt; Walking to Hollywood and Umbrella, which was shortlisted for the Man Booker Prize. Canyon Crossing

basis, n. There has to be a moment at the beginning when you wonder whether you're in love with the person or in love with the feeling of love itself. If the moment doesn't pass, that's it—you're done. And if the moment does pass, it never goes that far. It stands in the distance, ready for whenever you want it back. Sometimes it's even there when you thought you were
searching for something else, like an escape route, or your lover's face. How does one talk about love? Do we even have the right words to describe something that can be both utterly mundane and completely transcendent, pulling us out of our everyday lives and making us feel a part of something greater than ourselves? Taking a unique approach to this problem, the nameless narrator of David Levithan's The Lover's Dictionary has constructed the story of his relationship as a dictionary. Through these short entries, he provides an intimate window into the great events and quotidian trifles of being within a couple, giving us an indelible and deeply moving portrait of love in our time.
