Structured Finance and Collateralized Debt Obligations Janet M. Tavakoli,2008-09-22 An up-to-date look at the exploding CDO and structured credit products market In this fully updated Second Edition, financial expert Janet Tavakoli provides readers with a comprehensive look at the CDO and structured credit products market amid recent developments. In addition to a detailed overview of the market, this book presents key issues in valuing structured financial products and important quality control issues. Tavakoli shares her experiences in this field, as she examines important securitization topics, including the huge increase in CDO arbitrage created by synthetics, the tranches most at risk from new technology, dumping securitizations on bank balance sheets, the abuse of offshore vehicles by companies, the role of hedge funds, critical issues with subprime, Alt-A, and prime mortgage securitizations, and securitizations made possible by new securitization techniques and the Euro. While providing an overview of the market and its dynamic growth, Tavakoli takes the time to explore the types of products now offered, new hedging techniques, and valuation and risk/return issues associated with investment in CDOs and synthetic CDOs.

Structured Finance and Collateralized Debt Obligations Janet M. Tavakoli,2019-04-26 The classic finance book on cash and synthetic securitizations, asset-backed securities, mortgage-backed securities, credit derivatives, and the financial crisis.

Collateralized Debt Obligations and Structured Finance Janet M. Tavakoli,2004-03-29 The most cutting-edge read on CDO and credit market structures Collateralized Debt Obligations and Structured Finance provides a state-of-the-art look at the exploding CDO and structured credit products market. Financial expert Janet Tavakoli examines securitization topics never before seen in print, including the huge increase in the CDO arbitrage created by synthetics; the tranches most at risk from this new technology; dumping securitizations on bank balance sheets; the abuse of offshore vehicles by companies such

as Enron; and securitizations made possible by new securitization techniques and the introduction of the Euro. This valuable guide comprehensively covers one of the fastest growing markets on Wall Street, predicting where new bank regulations and other developments may lead to product growth or product extinction. While providing an overview of the market and its dynamic growth, *Collateralized Debt Obligations and Structured Finance* explores the types of products offered, hedging techniques, and valuation and risk/return issues associated with investment in CDOs and synthetic CDOs. Janet M. Tavakoli, MBA (Chicago, IL), has over eighteen years of experience trading, structuring, and marketing derivatives and structured products with major financial institutions in New York and London. She is also the author of *Credit Derivatives and Synthetic Structures*, now in its Second Edition (0-471-41266-X).

The Structured Credit Handbook Arvind Rajan, Glen McDermott, Ratul Roy, 2007-03-31 *The Structured Credit Handbook* is a comprehensive introduction to all types of credit-linked financial instruments. This book provides state-of-the-art primers on single tranche collateralized debt obligations (CDOs), collateralized loan obligations (CLOs), credit derivatives (such as credit default swaps and swaptions), and iBoxx indexes. Filled with in-depth insight and expert advice, *The Structured Credit Handbook* covers all aspects of the synthetic arbitrage CDO market, including new instruments such as CDO2. Readers will also gain a firm understanding of the investment rationale, risks, and rewards associated with CDO investments through this valuable resource. The exploding use of credit derivatives and collateralized debt obligations (CDOs) has transformed the world of credit, creating an \$18 trillion market almost overnight and resulting in innumerable investment and career opportunities globally. *The Structured Credit Handbook* provides the reader with a comprehensive and clear roadmap to today's new credit landscape. The full spectrum of structured credit products, from single-name CDS to

CDOs, is explained in a simple, clear fashion that is free from the financial jargon and mathematical complexity which characterize many other derivative texts. The handbook begins with an in-depth explanation of the building blocks of the structured credit markets, single-name default swaps and indexes, and it culminates with complex products such as credit options, synthetic tranches, CDOs based on bank loans and asset-backed securities, and CDO-squareds. Written by experienced practitioners who have participated in this market since its infancy, each of the thirteen chapters introduces and analyzes a new product and explains its practical applications. A rich set of real-life case studies illustrate the application of each product in a concrete market setting. The book may be used in a semester-long course on structured credit as part of a business or finance curriculum. Whether you are a market professional, a university student or faculty member, or simply a financially savvy layperson, look no further for an up-to-date and thorough introduction to this rapidly growing and exciting field. Dr. Arvind Rajan, Managing Director, Citigroup Global Markets, is engaged in proprietary trading of Structured Credit products, and until recently, was global head of Structured Credit Research and Strategy at Citigroup. Glen McDermott (New York, NY) is Director of Fixed Income Sales and the former head of CDO Research at Citigroup Global Markets Inc. Ratul Roy is head of CDO Strategy for Citigroup Global Markets and has spent the prior nine years in structuring or analyzing CDOs and other structured credit products.

Credit Derivatives and Structured Credit Trading Vinod Kothari, 2011-12-15 Credit derivatives as a financial tool has been growing exponentially from almost nothing more than seven years ago to approximately US\$5 trillion deals completed by end of 2005. This indicates the growing importance of credit derivatives in the financial sector and how widely it is being used these days by banks globally. It is also being increasingly used as a device of synthetic securitisation. This significant market trend underscores the need for a book of such a nature. Kothari, an undisputed expert in credit derivatives, explains the subject matter using easy-to-understand terms, presents it in a logical structure, demystifies the technical jargons and blends them into a cohesive whole. This revised book will also include the following: - New credit derivative definitions - New features of the synthetic CDO market - Case studies of leading transactions of synthetic securitisations - Basle II rules - The Consultative Paper 3 has significantly revised the rules, particularly on synthetic CDOs - Additional inputs on legal issues - New clarifications on accounting for credit derivatives/credit linked notes

Structured Credit Products Moorad Choudhry, 2011-09-20 Updated coverage of structured credit products with in-depth coverage of the latest developments Structured credit products are one of today's fastest growing investment and risk management mechanisms, and a focus of innovation and creativity in the capital markets. The building blocks of these products are credit derivatives, which are among the most widely used products in finance. This book offers a succinct and focused description of the main credit derivative instruments, as well as the more complex products such as synthetic collateralized debt obligations. This new edition features updated case studies from Europe and Asia, the latest developments

in synthetic structures, the impact of the subprime meltdown, along with models and teaching aids. Moorad Choudhry returns with this excellent update of the credit derivatives market. The second edition of his classic work is, like the subject matter itself, at the forefront of the financial industry. It deserves a wide readership. —Dr Didier Joannas Regional Director, Thomson Reuters, Hong Kong This is the perfect companion for both experienced and entry level professionals working in the structured credit fraternity. It is an erudite, insightful and enjoyable read that successfully demystifies one of the most topical subject areas in banking today, while also providing important practical examples that link the theory to the job itself. —Dr James Berriman Global Pricing Unit, Royal Bank of Scotland Moorad Choudhry has earned a deserved reputation from both academics and practitioners as one of the leading practical yet rigorous authors of finance books. In this Second Edition, his practical knowledge of credit derivatives keeps the audience engaged with straightforward explanations of complicated structures, and an accessible level of mathematical sophistication necessary to understand structured credit products. The author offers complete, rigorous analysis while avoiding overuse of mathematical formulas and carefully balanced practical and theoretical aspects of the subject. I strongly recommend this book for those wishing to gain an intuitive understanding of structured credit products, from practitioners to students of finance! —Mohamoud Barre Dualeh Senior Product Developer, Abu Dhabi Commercial Bank, UAE This is THE book for credit derivative trading. From first steps to advanced trading strategies, this is invaluable. Well written and insightful, perfect for ad hoc reference or reading cover to cover. —Andrew Benson ETF Market Making, KBC Peel Hunt, London Professor Choudhry has inspired me to really get into credit derivatives. It's great to be lectured by someone with such energy and practical hands-on experience, as well as the ability to get stuck into the details. —George Whicheloe Equity-Linked Technology, Merrill Lynch, London Moorad Choudhry is Head of Treasury at Europe Arab Bank plc in London. He is a Visiting Professor at the Department of Economics at London Metropolitan University.

Collateralized Debt Obligations E. Mrudula, 2006 Collateralized Debt Obligations (CDOs) are perhaps some of the most important innovations in the field of securitization. Credit Derivatives and Structured Credit Richard Bruyere, Regis Copinot, Loic Fery, Christophe Jaeck, Thomas Spitz, 2006-06-14 Over the past decade, credit derivatives have emerged as the key financial innovation in global capital markets. At end 2004, the market size hit \$6.4 billion (in notional amounts) from virtually nothing in 1995. This rise has been spurred by the imperative for banks to better manage their risks, not least credit risks, and the appetite shown by institutional investors and hedge funds for innovative, high yielding structured investment products. As a result, growth in collateralized debt obligations and other second-generation products, such as credit indices, is currently phenomenal. It is enabled by the standardization and increased liquidity in credit default swaps – the building block of the credit derivatives

market. Written by market practitioners and specialists, this book covers the fundamentals of the credit derivatives and structured credit market, including in-depth product descriptions, analysis of real transactions, market overview, pricing models, banks business models. It is recommended reading for students in business schools and financial courses, academics, and professionals working in investment and asset management, banking, corporate treasury and the capital markets. Highlights include: Written by market practitioners and specialists with first-hand experience in the credit derivatives and structured credit market A clearly-written, pedagogical book with numerous illustrations Detailed review of real-case transactions A comprehensive historical perspective on market developments including up-to-date analysis of the latest trends

The Handbook of Structured Finance, Chapter 11 - Recent and Not So Recent Developments in Synthetic CDOs Arnaud de Servigny, Norbert Jobst, 2007-01-22 This chapter comes from the book *The Handbook of Structured Finance*, a complete guide to the major issues facing investors in the structured finance market. Comprehensive and accessible, it provides the latest techniques for measuring and managing risk, finding optimum pricing, and taking advantage of leverage and market incompleteness, as well as models for debt and equity modeling.

A Primer on Synthetic Collateralised Debt Obligations Didier Joannas, Moorad Choudhry, 2003 The Collateralized Debt Obligation (CDO) was a natural development in securitisation, first introduced in 1988. A CDO is a structured finance product in which a distinct legal entity known as a special purpose vehicle issues bonds or notes against an investment in cash flows of an underlying pool of assets. These assets can be bonds, commercial bank loans or a mixture of both bonds and loans. Originally CDOs were developed as repackaging structures for high-yield bonds and illiquid instruments such as certain convertible bonds, but they have developed into sophisticated investment management vehicles in their own right. Through the 1990s CDOs were the fastest growing asset class in the asset-backed securities market, due to a number of features that made them attractive to issuers and investors alike. A subsequent development was the synthetic CDO, a structure that combines credit derivatives and securitization technology in its construction. It has become very popular with banks and fund managers, both from an originator and investor perspective. considering the genesis of the CDO, principally the economic advantages of these products for both issuers and investors. It then looks at the products themselves and concludes with case studies of selected CDO transactions.

The Handbook of Structured Finance, Chapter 9 - Cash and Synthetic CDOs Arnaud de Servigny, Norbert Jobst, 2007-01-22 This chapter comes from the book *The Handbook of Structured Finance*, a complete guide to the major issues facing investors in the structured finance market. Comprehensive and accessible, it provides the latest techniques for measuring and managing risk, finding optimum pricing, and taking advantage of leverage and market incompleteness, as well as models for debt and equity modeling.

Investing in Collateralized Debt Obligations Frank J. Fabozzi, Laurie S. Goodman, 2001-05-15 The fastest growing sector of the asset-backed securities market is the collateralized debt obligation (CDO) market. CDOs are securities backed by a pool of diversified assets and are referred to as collateralized bond obligations (CBOs) when the underlying assets are bonds and as collateralized loan obligations (CLOs) when the underlying assets are bank loans. *Investing in Collateralized Debt Obligations* covers not only the fundamental features of these securities and the investment characteristics that make them attractive to a broad range of institutional investors, but also the tools for identifying relative value. Nearly a dozen of today's best known analysts discuss emerging market CBOs, relative value frameworks, pricing strategies and techniques, and more.

Leveraged Finance Stephen J. Antczak, Douglas J. Lucas, Frank J. Fabozzi, 2009-07-27 A timely guide to today's high-yield corporate debt markets *Leveraged Finance* is a comprehensive guide to the instruments and markets that finance much of corporate America. Presented in five sections, this experienced author team covers topics ranging from the basics of bonds and loans to more advanced topics such as valuing CDs, default correlations among CLOs, and hedging strategies across corporate capital structures. Additional topics covered include basic corporate credit, relative value analysis, and various trading strategies used by investors, such as hedging credit risk with the equity derivatives of a different company. Stephen Antczak, Douglas Lucas, and Frank Fabozzi present readers with real-market examples of how investors can identify investment opportunities and how to express their views on the market or specific companies through trading strategies, and examine various underlying assets including loans, corporate bonds, and much more. They also offer readers an overview of synthetic and structured products such as CDS, LCDS, CDX, LCDX, and CLOs. *Leveraged Finance* has the information you need to succeed in this evolving financial arena.

Securitization of Credit James A. Rosenthal, Juan M. Ocampo, 1991-01-16 The first guide to this new financial trend. Credit securitization (also known as asset securitization) is a financial technology for packaging, underwriting, and selling loans in the form of securities. First used in packaging mortgage loans (as in the case of GNMA and other federally insured mortgage-backed securities), credit securitization has grown rapidly and spread to other forms of credit, including auto loans, student loans, credit-card balances, and so on. This book provides lenders and other financial professionals with clear analyses of many actual credit securitization deals. Includes much information unavailable elsewhere.

Collateralized Debt Obligations Albert Schaber, 2009 This book offers insights into three different aspects of Collateralized Debt Obligations (CDOs). The first section covers a mechanism that explains the sale of first loss positions to investors. The theoretical model is based on a repeated game and focuses on the role of issuer reputation. The second section empirically analyzes combination notes. These are a particular type of security issued in CDOs, consisting of parts of different tranches of one CDO transaction. The findings show that combination notes are used as an equity transfer vehicle and that their tranching caters to segmented demand. The third section finally analyzes the tranching of CDOs. A transaction

cost-based hypothesis of tranching is proposed and verified empirically.
