The ten stories gathered together in The Tomorrow-Tamer are Margaret Laurence's first published fiction. Set in raucous and often terrifying Ghana, where shiny Jaguars and modern jazz jostle for eminence against fetish figures, tribal rites, and the unchanging beat of jungle drums, the stories tell of individuals, European and African, trying to come to terms with the frightening world brought about by the country's new freedom. With the same compassion and understanding she would bring to her later fiction set in Canada, Laurence succeeds brilliantly in capturing the atmosphere of a continent and of individual men and women struggling for survival under the impact of the wind of change.

The twenty-fifth anniversary edition of this book is now available. This compelling book provides a vivid firsthand account of the student demonstrations and massacre in Tiananmen Square in 1989. Uniquely placed as a Western observer drawn into active participation through Chinese friends in the uprising, Philip J Cunningham offers a remarkable day-by-day account of Beijing students desperately trying to secure the most coveted political real estate in China in the face of ever more daunting government countermoves. Tiananmen Moon takes the reader into the thick of the 1989 protests while also following the parallel response of an unprepared but resourceful Western media. Cunningham recounts rare vignettes about life in Tiananmen Square under student leadership,
including a near riot when a reporter is mistaken for Gorbachev, the saga of a tearful leader who quits and dictates her last will and testament to the author, and a dramatic account of futile resistance in the face of an unforgiving crackdown. He chronicles the opportunistic and awkward tango between naive student activists and jaded foreign journalists, in which, after a month of mutual courting, the tables turn and the now-savvy students watch the journalists, seduced and confused, run circles just trying to keep up. During the hunger strike under the light of a full moon, China bares its conflicted soul to the world, the mournful cry for reform amplified by the footsteps of a million peaceful marchers. This remarkable testament to a searing month that changed China forever serves as a witness to the rise and fall of an uprising, capturing the plaintive and lyrical beauty of a dream that endures and continues to haunt the country today.
