Mind Over Machine Barbara Christine Hoekenga,Massachusetts Institute of Technology. Graduate Program in Science Writing,2007 On May 11th 1997 the world watched as IBM s chess playing computer Deep Blue defeated world chess champion Garry Kasparov in a six game match The reverberations of that contest touched people and computers around the world At the time it was difficult to assess the historical significance of the moment but ten years after the fact we can take a fresh look at the meaning of the computer s victory With hindsight we can see how Deep Blue impacted the chess community and influenced the fields of philosophy artificial intelligence and computer science in the long run For the average person Deep Blue embodied many of our misgivings about computers becoming our new partners in the information age For researchers in the field it was emblematic of the growing pains experienced by the evolving field of AI over the previous half century In the end what might have seemed like a definitive earth shattering event was really the next step in our on going journey toward understanding mind and machine While Deep Blue was a milestone the end of a long struggle to build a masterful chess machine it was also a jumping off point for other lines of inquiry from new supercomputing projects to the further development of programs that play other games such as Go Ultimately the lesson of Deep Blue s victory is that we will continue to accomplish technological feats we thought impossible just a few decades before And as we reach each new goalpost we will acclimate to our new position recognize the next set of challenges before us and push on toward the next target

Kasparov Versus Deep Blue Monroe Newborn,1997 Written by the organizer of this historic match this book provides a whistle stop tour of the development and history of chess playing computers As the development comes to its culmination in Philadelphia the Deep Blue team and Gary Kasparov are profiled and each of the historic six games is provided in full with a detailed commentary The Foreword is written by chess grandmaster Yasser Seirawan who provided lively commentary throughout the match 16 illus
