Algunos Circulos Kandinsky

**Wassily Kandinsky** Wassily Kandinsky, José María Faerna García-Bermejo, 2005

Así es... Kandinsky ,

*La gramática de la creación, el futuro de la pintura* Vasili Kandinsky, 1996 El hilo conductor que une estos dos textos de Kandinsky parece ser el convencimiento de la existencia de un nuevo arte que permitir al hombre tocar bajo la piel de la naturaleza su esencia y su En se trata de justificar el principio de la necesidad interior o principio de la toma de contacto con el alma humana Por otra parte en Kandinsky se lamenta de que se haya criticado al arte de la actualidad de ser voluntariamente inexpresivo y cerebral de haber restringido las posibilidades que se ofrecen a la pintura y a la escultura y de haber eliminado todas las posibilidades de evolución y de desarrollo artísticos pues está convencido de que el tiempo demostrará que el arte no excluye la unión de la naturaleza sino que por el contrario esta unión es mayor y más íntima de lo que fue en pocas pasadas

Wassily Kandinsky, 1866-1944 Hajo Düchting, Wassily Kandinsky, 2000 The founder of abstract art The Russian painter Wassily Kandinsky 1866 1944 who later lived in Germany and France is one of the pioneers of twentieth century art Nowadays he is regarded as the founder of abstract art and is moreover the chief theoretician of this type of painting Together with Franz Marc and others he founded the group of artists known as the Blaue Reiter in Munich His art then freed itself more and more from the object eventually culminating in the First Abstract Watercolour of 1910 In his theoretical writings Kandinsky repeatedly sought the proximity of music and just as in music where the individual notes constitute the medium whose effect stems from harmony and euphony Kandinsky was aiming for a pure concord of colour through the interplay of various shades Gauguin had demanded that everything must be sacrificed to pure colours Kandinsky was the first to realise this and thus to influence a whole range of artists About the Series Each book in TASCHEN's Basic Art series features a detailed chronological summary of the life and oeuvre of the artist covering his or her cultural and historical importance a concise biography approximately 100 illustrations with explanatory captions

**La imagen prohibida** Alain Besançon, 2003-11-10 Por qué en el apogeo del arte griego los filósofos proponen razones para despreciarlo Por qué la prohibición pública de la imagen ha sido interpretada de modo tan distinto por judíos musulmanes y cristianos Por qué la querrela de las imágenes cobró tal gravedad en Oriente y en Occidente hizo caso omiso y multiplicó las imágenes sagradas y profanas Este libro responde a estas preguntas y plantea otras Se interroga sobre la nueva iconoclasia que se desarrolla en Occidente Calvino que expulsa la imagen del templo los jansenistas que la desdeñan Kant que la juzga inútil Hegel anticuada y la transformación que estas corrientes imponen al arte europeo Alain Besançon desvela en esta historia el desarrollo de una lógica espiritual enemiga de la imagen que se consume de siglo en siglo hasta llegar al nuestro Destaca los momentos clave siguiendo el hilo que recorre la reflexión estética desde Platón hasta Malevich E interpreta en la explosión del arte abstracto el eco de antiguas concepciones iconoclastas Toda su faceta del arte contemporáneo se ve iluminada por esta larga investigación sobre la imagen divina aunque la nueva iconoclasia olvide a menudo los argumentos de la antigua

**Punto y línea sobre el plano** Wassily Kandinsky,1996 Aparecido en 1926 Punto y línea sobre el plano es la continuación orgánica de otro texto de Kandinsky también publicado por Paidós De lo espiritual en el arte y debe su origen en su mayor parte a la tarea que su autor había asumido en la Bauhaus desde 1922 En efecto tanto en su pintura como en sus ideas estéticas Kandinsky mostró siempre una personalidad absolutamente vanguardista y provocadora de acaloradas polémicas Y en este sentido la presente obra es uno de sus trabajos fundamentales ya que a la par que una esclarecedora contribución al análisis de los elementos esenciales del quehacer pictórico constituye una aportación básica a la búsqueda de un método genérico para las investigaciones de las ciencias artísticas El libro finalmente también revela a Kandinsky como un artista apasionado y siempre deseoso de explicar y explicarse las razones primeras y más profundas de esa extraña y singular aventura que es la creación artística

*Kandinsky* Kenneth C. Lindsay, Peter Vergo, 1994-03-22 The importance of Kandinsky's art and thought in the history of modern art combined with the completeness careful scholarship and crisp design of this volume make it especially useful Choice Of all the giants of twentieth century art Wassily Kandinsky 1866 1944 was the most prolific writer Here available for the first time in paperback are all of Kandinsky's writings on art newly translated into English Editors Kenneth C Lindsay and Peter Vergo have taken their translations directly from Kandinsky's original texts and have included select interviews lecture notes and newly discovered items along with his more formal writings The pieces range from one page essays to the book length treatises *On the Spiritual in Art* 1911 and *Point and Line to Plane* 1926 and are arranged in chronological order from 1901 to 1943 The poetry good enough to stand on its literary merits is presented with all the original accompanying illustrations And the book's design follows Kandinsky's intentions preserving the spirit of the original typography and layout Kandinsky was nearly thirty before he bravely gave up an academic career in law for his true passion painting Though his art was marked by extraordinarily varied styles Kandinsky sought a pure art throughout one which would express the soul or inner necessity of the artist His uncompromising search for an art which would elicit a response to itself rather than to the object depicted resulted in the birth of nonobjective art and in these writings Kandinsky offered the first cogent explanation of his aims His language was characterized by its desire for vivification of the infusion of life into mundane things Considered as a whole Kandinsky's writings exceed all expectations of what an artist should accomplish with words Not only do his ideas and observations make us rethink the nature of art and the way it reflects the aspirations of his era but they touch on matters vital to the situation of the human soul
